MEMORIES THEN AND NOW

Janne favours the current rule changes in general and can remember club hockey being family orientated and lots of fun times were had.

Two of the biggest commitments were to provide a place for Downey Park Players to mix and mingle (hence the building was finally erected) and the last National Women's Championships on grass. Thanks to the Team of the time, all fixtures were split over the weekend for about 12–18 months so the new Field 1 could be built (by hand), and other fields could be adjusted to suit.
