Tweed Hockey  
Association

It is important to note the following:

- The Southern Cross is considered a part of the overall selection trial process, and movement will still possibly occur after the one-day tournament, before the State Championships Teams are announced.
- The Selection Panel have decided to name additional player numbers in the Southern Cross teams (for further selection opportunity) that may be less than the final teams announced. Players need to be aware that although they may be selected in a Southern Cross team, this is not an automatic selection into a State Championship team
- A list of shadows will accompany the State Championship team announcement.
